ALKAME DRAGON BOAT SERVICES

PROFILE

Alkame Dragon Boat Services is the result of an insatiable love and passion for sport. Its purpose is to provide a mechanism for which individuals and groups can enhance their enjoyment of sport.

Alkame is derived from the word 'alchemy' which means: "a form of chemistry and speculative philosophy practiced in the Middle Ages and the Renaissance and concerned principally with discovering methods for transmuting base metals into gold and with finding a universal solvent and an elixir of life."

Therefore the concept is to use coaching methods to turn base metal (athletic potential) into gold (representative of athletic excellence) through an elixir of life (sport).

WHY YOU SHOULD GET INVOLVED

As one of the fastest growing sports in the world, we connect with thousands of people each summer. The paddlers we meet are usually between the ages of 30-59, are college and/or university educated, care about the environment and their overall health, and tend to have a higher level of disposable income.

If you are looking for someone to introduce your latest product to, or would like to be known in the dragon boat events industry, this is a great space to be in.
